

Arizona Report of Public Agency Performance on Suspension/Expulsion Rates for Students with IEPs

Indicator 4A: Suspension/Expulsion Rates

Percent of public education agencies (PEAs) that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs.

Measurement

The percentage is the number of PEAs that have a significant discrepancy in the rate of out-of-school suspensions and expulsions of children with IEPs for greater than 10 days in a school year divided by the number of PEAs in the State, times 100.

Data

The data are from school year 2008–2009. Arizona defines significant discrepancy for suspension and expulsion to be 10 or more students suspended for greater than 10 days in a school year and greater than 5% of the special education population of the PEA.

PEAs that are listed with an asterisk (*) suspended students with IEPs at a rate \leq 5% of the special education population of the PEA but:

- The number of students with disabilities enrolled in the school was less than 10, or
- The number of students with disabilities who were suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

PEAs that are listed with a number symbol (#) suspended students with IEPs at a rate $>$ 5% of the special education population of the PEA but:

- The number of students with disabilities enrolled in the school was less than 10, or
- The number of students with disabilities who were suspended was less than 10.

In these instances, the data are not reported to ensure confidentiality.

State Target: \leq 1.35% of the PEAs in Arizona have suspension rates $>$ 5% of their population of special education students. Note: The target for each PEA is \leq 5% (of their population of special education students).

State Results: 0.51% of the PEAs in Arizona have suspension rates $>$ 5% of their population of special education students.
